

# Installation and Importation Guide

## Install Net-Beans:

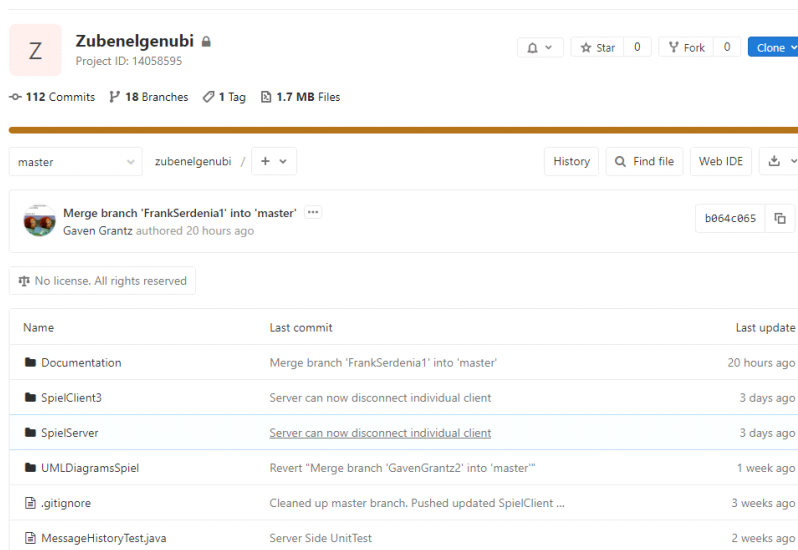

- Go to <https://netbeans.apache.org/download/index.html>.

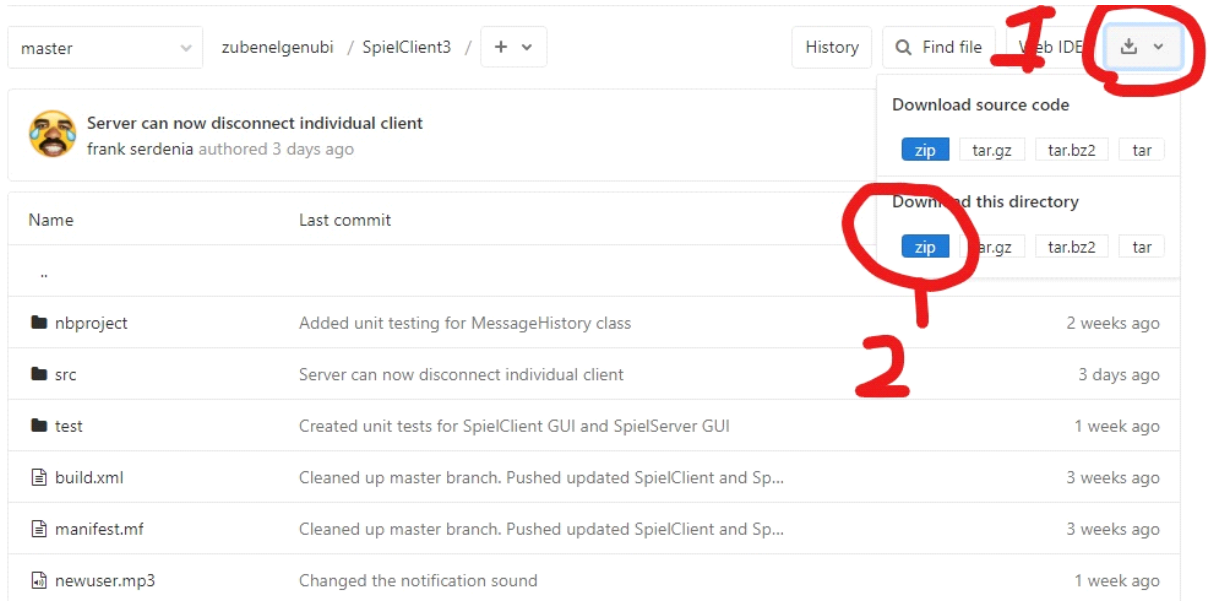

- Download the latest version of NetBeans and then install it.
- If your platform is MAC, you could visit <https://mac.filehorse.com/download-netbeans/>.

## Download Spiel Client and Server:

- Go to <https://gitlab.com/csun3801920/team-4/zubenelgenubi> and login with your git-lab account. You will have this page.

- Click the SpielClient3, and then download this directory as a zip.
